## RRTVA APPLICATION GUIDELINES

The Red River Technical Vocational Area (RRTVA) is developed and funded by the participating partner school divisions who contribute resources annually for their students vocational learning opportunities. The number of students that can be served by is limited by the capacity of each program. Students enrolled and attending from those partner school divisions at the time of the RRTVA Enrollment Period have the priority of available spaces. The Enrollment Period begins in Semester 2 each year in March, for the following school year.
