## HSAP Guide

High School Apprenticeship Program

### What is HSAP?

The High School Apprenticeship Program (HSAP) is a work experience credit. Students are trained on-the-job by a qualified trades person. Students earn school credits, get paid and gain apprenticeship hours.

# Students Can Start Their Career in High School

## High School Apprentices:

- May acquire up to 8—Grade 12 High School credits.
- Earn minimum wage plus 10%.
- Collect work experience hours that count towards trade certification.
- Gain valuable trade knowledge and skills.
- Learn employability skills like being on time, showing initiative, and work ethic.

## How to Get Started:

- Find employment in a trade (contact family and friends as well as introduce themselves to employers in person with a resume and cover letter).
- Be at least 16 years old .
- Contact a HSAP Teacher and fill out the necessary forms.
- Students may work in the evenings and during school breaks.

## After High School:

- Apprentices continue to learn on the job and collect work experience hours.
- Apprentices typically work for 10 months each year, and then attend technical training through Apprenticeship Manitoba at either Red River College or Assiniboine Community College to complete a level of training.
- Apprentices complete 2-5 levels of training depending on the trade they choose.
- Completion of apprenticeship results in Red Seal Journey person and/or a licensed trades person certification.
- Apprentices must register for technical training with Apprenticeship Manitoba.

Students see the value of their learning at the work place.

## HSAP Is Available in the Following School Divisions:

- Border Land
- Red River Valley
- Garden Valley
- Western
